Elisha

Please see the message below from our website host. Let me know what you may need from me Thank you.

Hi Matthew,

I have updated and configured everything. The username and password is the same for the WordPress dashboard. Please have your design person activate/register the premium theme for future updates and leave the 'mainwp child' plugin installed and activated. Let me know if you have any questions or need assistance with anything else.

Stay safe and healthy,

Hey Matthew,

Hope you are well. I would be requiring the credentials for WordPress(Wp-admin) of the website that your hosting guy has configured. After looking into that I can let you know.

Thanks and Regards.
